Testing Debug report:

Functional Testing:

Functional testing is a kind of black-box testing that is performed to confirm that the functionality of an application or system is behaving as expected. It is done to verify all the functionality of an application. The below comes are the different functional testing:

- Unit testing
- Integration testing
- System testing
- User Acceptance testing

Unit Testing:

Test condition 1: Registration

Table 1: Registration Process as an Employer						
Case ID	Scenario	Steps	Test Data	Expected Result	Actual Result	Pass/Fail
TC1.2	Registration page should show "Register now" in the top left on the page	Go to: https://sinergy.lk , click "Register Now" in top right side of the page	Button click event	It should show "Registration page"	Employer Dashboard	FAIL

Developer feedback:

Corrected on 27th September 2020

Test condition 4: Employer Dashboard

Table 4: Employer dashboard features						
Case ID	Scenario	Steps	Test Data	Expected Result	Actual Result	Pass/Fail
TC4.7	Check by clicking the different timing check box disables the from and to time field	Click the different timing check box in the job timing page	Check box	It should disable the from and to time fields	Not disables	FAIL

Developer feedback:

Corrected on 27th September 2020

Test condition 5: Job Seeker Dashboard

Table 5: Job Seeker dashboard features						
Case ID	Scenario	Steps	Test Data	Expected Result	Actual Result	Pass/Fail
TC5.5	Check selecting past dates in "availability" page gives an error	Select past date in the start date field	Date picker	It should show error as "Past dates cannot be accepted"	Accepted	FAIL
TC5.6	Check selecting past dates in end date field in the "availability" page gives an error	Select past date in the end date field	Date picker	It should show error as "Past dates cannot be accepted"	Accepted	FAIL
TC5.7	Check by clicking the different timing check box disables the from and to time field	Click the different timing check box in the "Availability" page	Check box	It should disable the from and to time fields	Not disabled	FAIL

Developer feedback:

TC5.5 - Done with validation
 TC5.6 – Done with validation
 TC5.7 – Corrected with jQuery
