Employer: If we click the employer tab, we will get the details of Employer login, Employer registration and Employer dashboard. Employer can directly login if they have already registered, else employer needs to register first to access the employer dashboard.

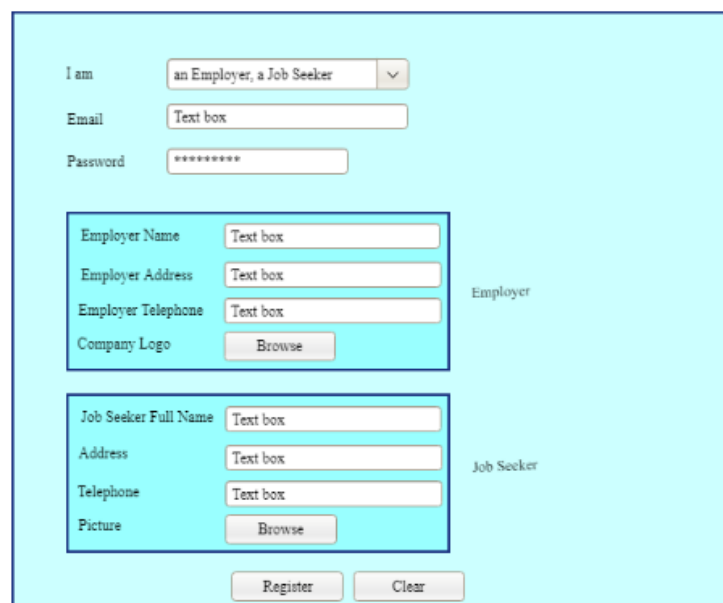

Client feedback:

Login

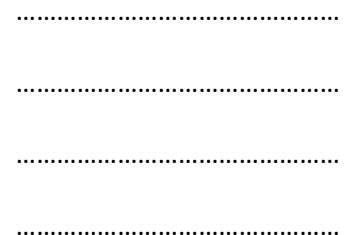

The login form is titled "I am a" and features a dropdown menu labeled "Combo Box" with a downward arrow. To the right of the dropdown is the text "Employer, Job Seeker". Below this, there are two text input fields: "Username/Email" and "Password". The "Password" field is masked with asterisks. Below the password field is a checkbox labeled "Remember me". At the bottom of the form are two buttons: "Login" and "Clear". A blue hyperlink labeled "Forget password" is located below the "Clear" button.

Registration

The registration form is titled "I am" and features a dropdown menu labeled "an Employer, a Job Seeker" with a downward arrow. Below this, there are three text input fields: "Email" and "Password". The "Password" field is masked with asterisks. Below the password field, there are two sections: "Employer" and "Job Seeker". The "Employer" section contains four text input fields: "Employer Name", "Employer Address", "Employer Telephone", and "Company Logo". The "Job Seeker" section contains four text input fields: "Job Seeker Full Name", "Address", "Telephone", and "Picture". Both sections have a "Browse" button next to the "Company Logo" and "Picture" fields respectively. At the bottom of the form are two buttons: "Register" and "Clear".

Feedback:

The feedback form consists of four horizontal dotted lines for text input.

Job seeker: If we click the Job seeker tab, it will take to the job seeker login page where the job seeker can login or register if they are a first-time user. Once registered, they can access the job seeker dashboard, number of jobs matching based on their education, experience and other requirements

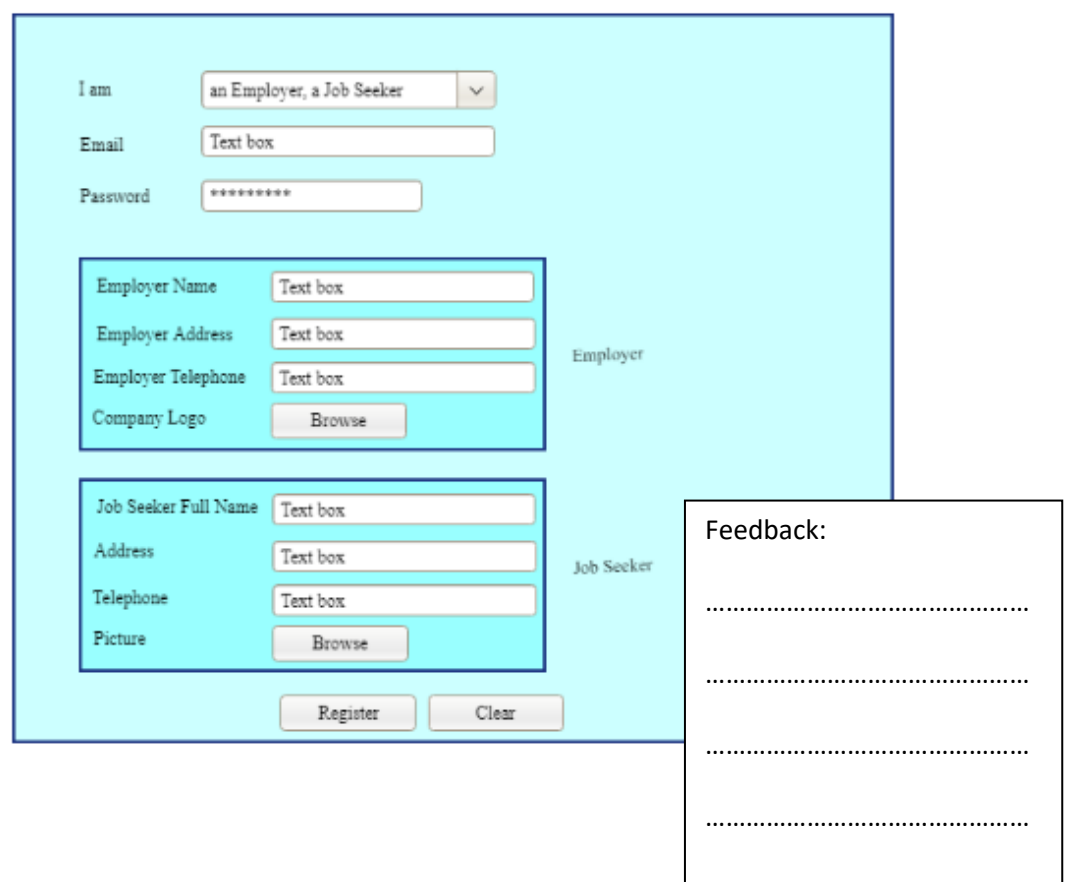

Client feedback:

Login

The login form is set against a light purple background. It begins with the text "I am a" followed by a dropdown menu currently showing "Combo Box" and a small downward arrow. To the right of this is the text "Employer, Job Seeker". Below this are two text input fields: "Username/Email" and "Password" (the latter showing masked characters with asterisks). A checkbox labeled "Remember me" is positioned below the password field. At the bottom of the form are two buttons, "Login" and "Clear", and a blue hyperlink labeled "Forget password".

Registration

The registration form is set against a light blue background. It starts with the text "I am" followed by a dropdown menu showing "an Employer, a Job Seeker" and a downward arrow. Below this are text input fields for "Email" and "Password" (masked with asterisks). The form is divided into two main sections: "Employer" and "Job Seeker". The "Employer" section, outlined in blue, includes fields for "Employer Name", "Employer Address", "Employer Telephone", and a "Company Logo" field with a "Browse" button. The "Job Seeker" section, also outlined in blue, includes fields for "Job Seeker Full Name", "Address", "Telephone", and a "Picture" field with a "Browse" button. At the bottom of the form are "Register" and "Clear" buttons. To the right of the registration form is a separate white box with a black border. It is titled "Feedback:" and contains five horizontal dotted lines for text entry.

Casual Jobs V.1 homepage:

Below attached is the image of home page which has the features as follows.

- Registration for the first-time user
- Login for already registered user
- Navigate directly to employer or job seeker profile
- About and contact us options
- Details about Casual Jobs Database V.1 application with its benefits
- Ratings and reviews by users

Register now:

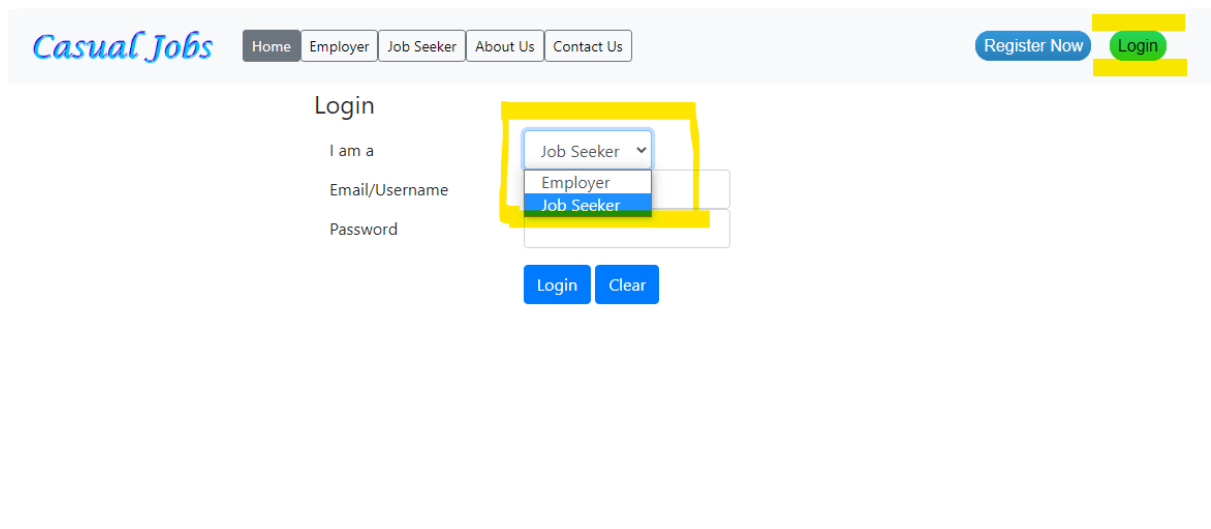

“Register now” option allows employer and job seeker to register themselves to access the casual jobs database

The screenshot shows the 'Casual Jobs' website's registration page. The header includes the logo and navigation links: Home, Employer, Job Seeker, About Us, and Contact Us. On the right, there are 'Register Now' and 'Login' buttons. The main section is titled 'Employer Dashboard'. It contains a registration form with the following fields: 'I am' (a dropdown menu), 'Email/User Name', 'Password', 'Confirm Password', 'Employer Name', 'Employer Address', 'Address Line 2', and 'Suburb'. The 'I am' dropdown is highlighted with a yellow box, and its menu is open, showing three options: 'an Employer' (selected), 'an Employer', and 'a Job Seeker'.

Field	Value/Options
I am	an Employer (selected), an Employer, a Job Seeker
Email/User Name	
Password	
Confirm Password	
Employer Name	
Employer Address	Start typing an address..
Address Line 2	
Suburb	

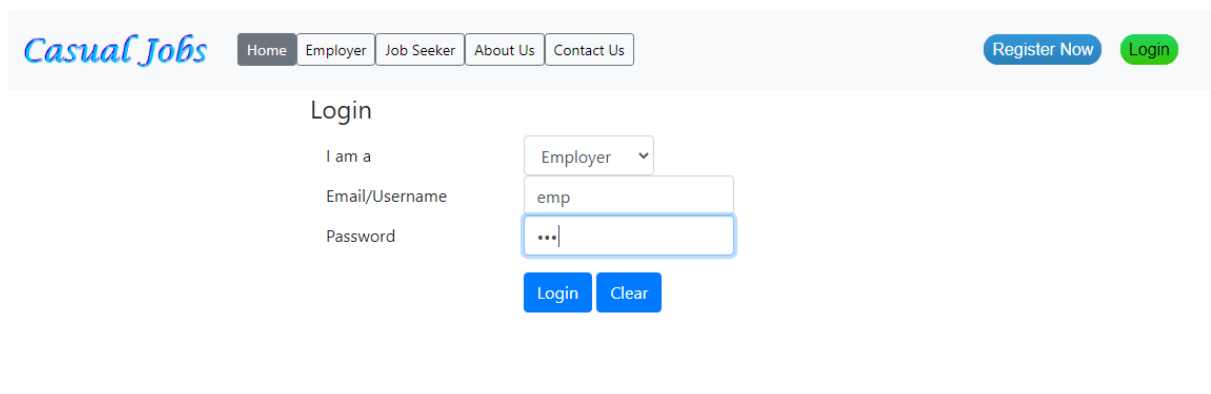

Login:

Already registered employer or job seeker can directly access the login button by entering their credentials

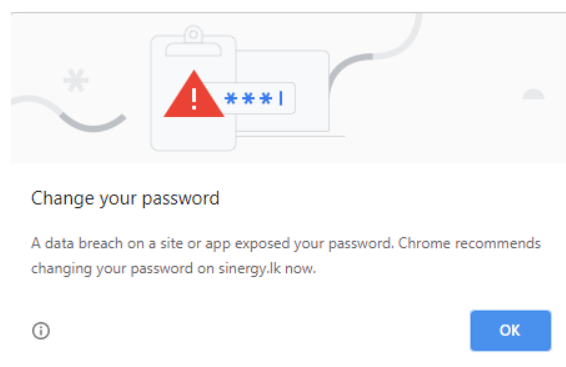

The screenshot shows the 'Casual Jobs' website header with navigation links: Home, Employer, Job Seeker, About Us, and Contact Us. On the right, there are buttons for 'Register Now' and 'Login'. The main content area is titled 'Login' and contains a form with the following fields: 'I am a' (a dropdown menu), 'Email/Username', and 'Password'. The dropdown menu is open, showing options: 'Job Seeker' (selected), 'Employer', and 'Job Seeker'. Below the form are 'Login' and 'Clear' buttons.

Employer login:

The screenshot shows the 'Casual Jobs' website header with navigation links: Home, Employer, Job Seeker, About Us, and Contact Us. On the right, there are buttons for 'Register Now' and 'Login'. The main content area is titled 'Login' and contains a form with the following fields: 'I am a' (a dropdown menu), 'Email/Username', and 'Password'. The dropdown menu is set to 'Employer'. The 'Email/Username' field contains the text 'emp' and the 'Password' field contains three asterisks '***'. Below the form are 'Login' and 'Clear' buttons.

About us:

This section provides the detailed description about who we are, the reason for creating this application, who will be benefited by using this application etc.,

Contact us:

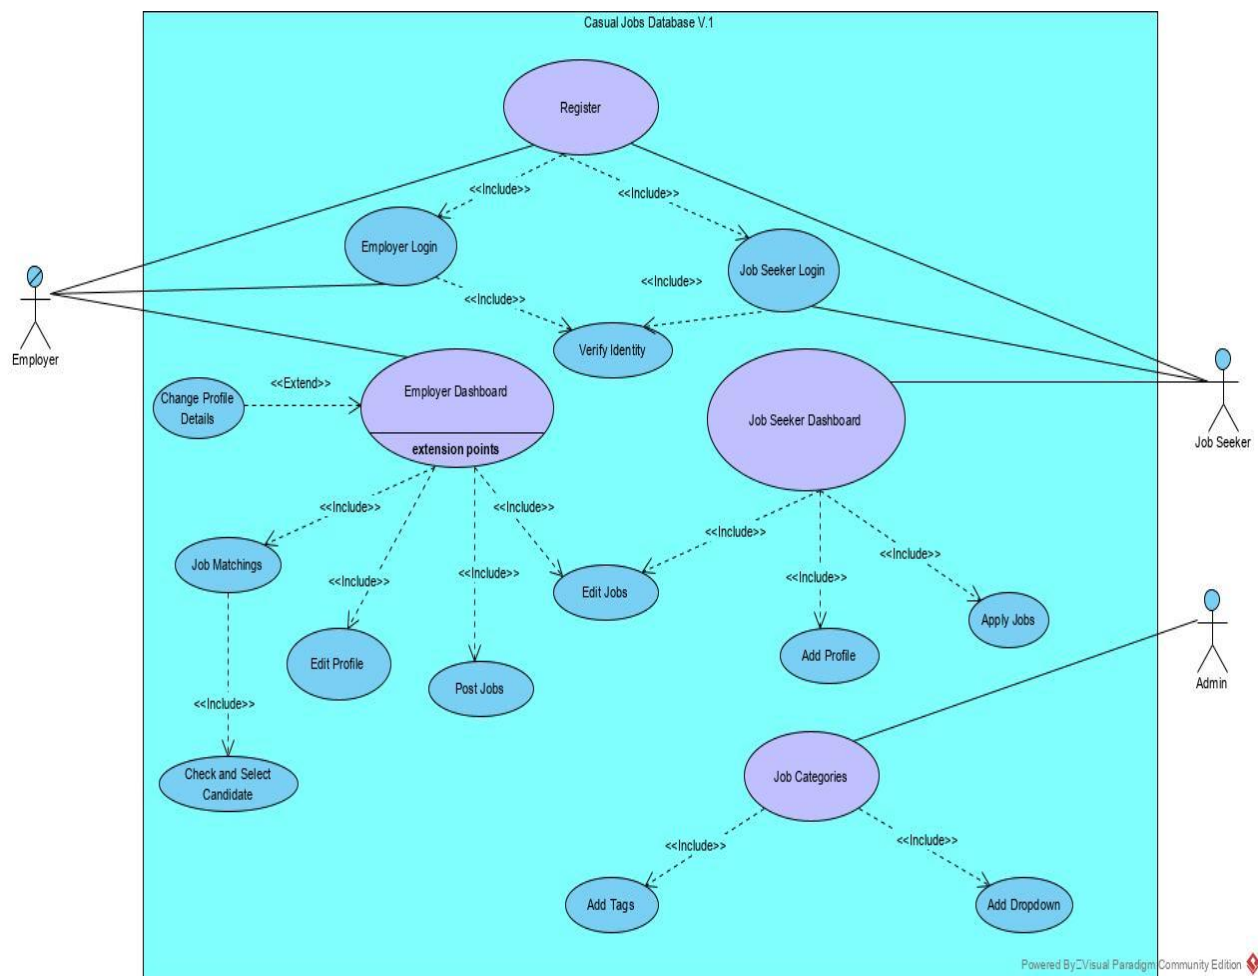

This section helps and provide accessibility to employer and job seeker to contact us for registering with Casual Jobs Database, login, careers, future opportunities etc.,

Use case diagram:

Use case diagram represents the actor's behaviour of the system. Figure 1 shows the high-level requirement of the system and explains the relationship between actors and the different use cases in which the whole system involved. The role of the actors in Casual Jobs Database V.1 is to interact with the system. List of actors in Casual Jobs Database V.1 are as follows:

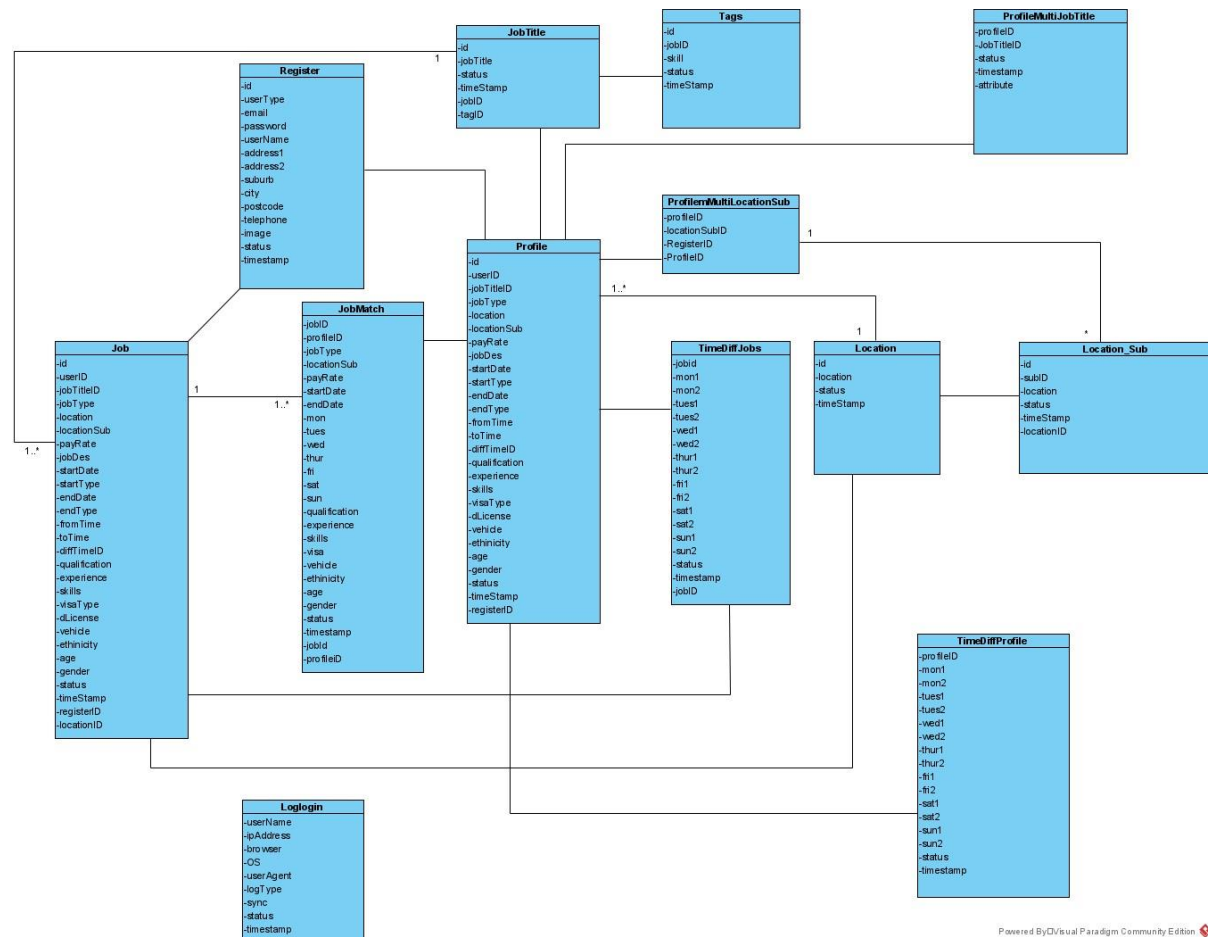

- AC01 Employer
- AC02 Job Seeker
- AC03 Admin

Class diagram:

Class diagram represents the structure of the system by showing the system's classes, their attributes, operations (or methods), and the relationship among objects.

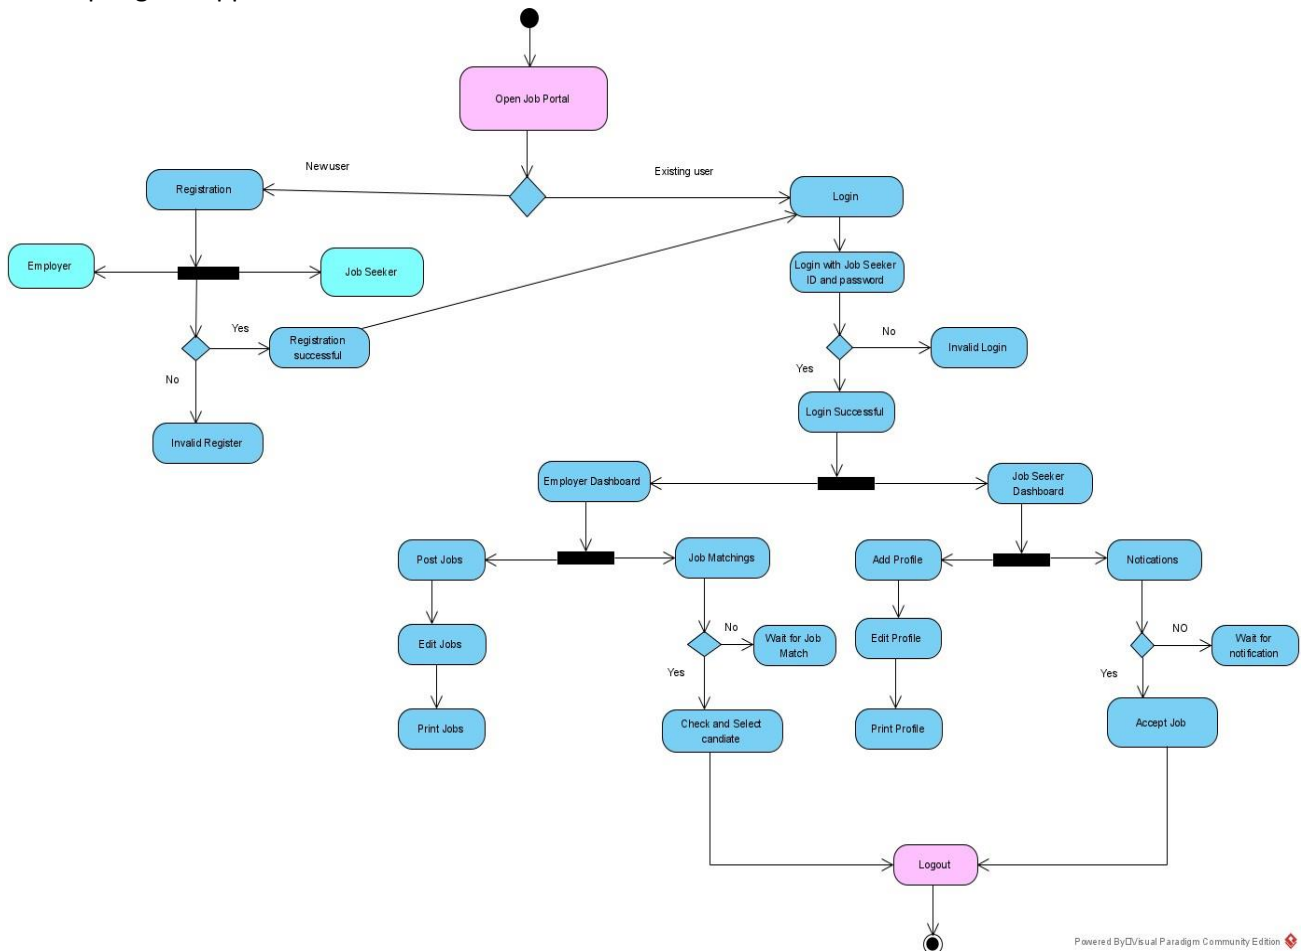

The classes in a class diagram represent both the main elements, interactions in the application, and the classes to be programmed and the multiplicity represents the functions of the classes.

Powered By DVISUAL Paradigm Community Edition

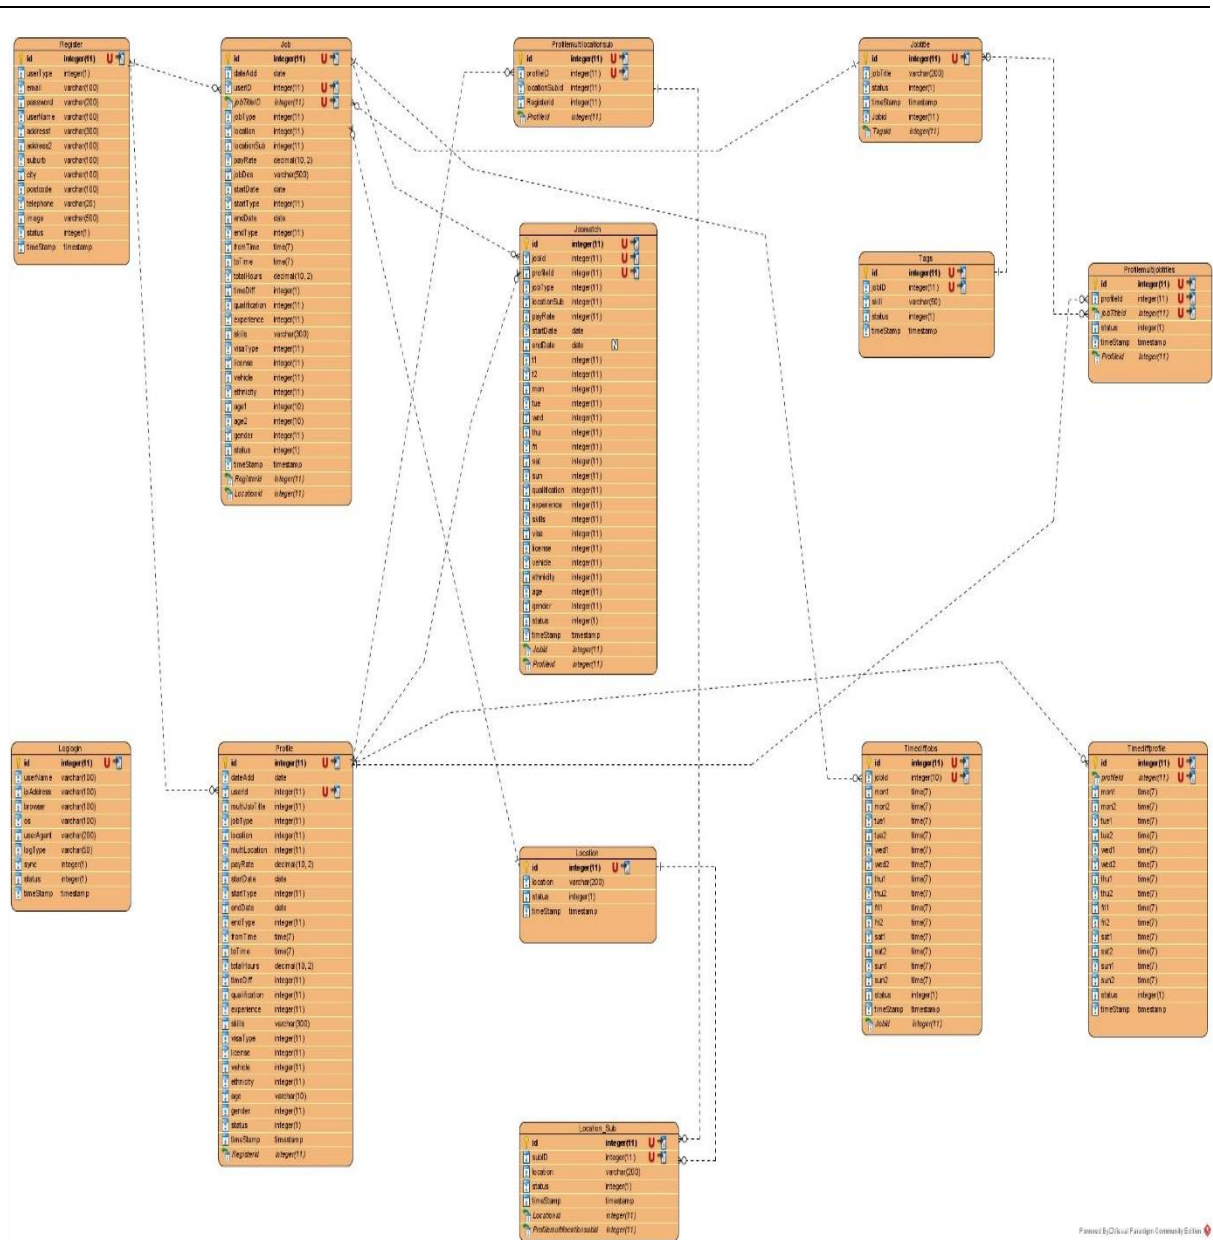

Activity diagram:

Casual Jobs Database activity diagram explains about the series of actions performed by the employer and the job seeker. It represents the flow from one activity to another activity. Firstly, the employer register into the job portal. Once registration is completed, the employer logs into the portal for accessing the dashboard. Then the employer can edit and post the jobs. On the other hand, Job Seeker also registers into the portal. After registration, the Job Seeker logs into the portal for accessing the dashboard. And then, Job Seeker can add profile and edit it. As the employer and job seeker profile matches, the system sends the matched job seeker profile to the employer, the employer checks and select the candidate. And then the job seeker receives the notification for accepting the application.

Entity Relationship Diagram:

ERD diagram helps to understand the tables and its relations in the database.

Registration:

Registration is a first page where users' will enter their details to start using the application and those details will be used to login into the application going forward. Registration details will be stored in the database at the backend, which would automatically detect the users whether they are an employer or job seeker when they login.

All the registration related files are located in:

`www/register/ajaxupload.php` – Profile Image upload.

`www/register/data.php` – Insert register data using this file.

`Index.php` – All the front-end code and connect to backend using ajax coding with jQuery.

Edit/Delete User Information:

It is an important feature in all the application which consists users. Admin has the access to edit/delete users' profiles which falls under performance or seems inappropriate. Admin holds complete authority and rights to terminate any users without prior notice based on their performance

All the user profile edit files contains as below:

`www/editprofile/ajaxupload.php` – Profile image change and remove.

`www/editprofile/data.php` – All the coding for updating user profiles.

`www/editprofile/deleteprofile.php` – This file contains delete user.

`www/editprofile/index.php` – This is the front-end file.

`www/editprofile/loadData.php` – This file calls at the load of index.php to retrieve user profile data.

Login:

After registration process is done, login page allows the user to access the application and update the jobs or profile. Login page is designed in a way that it will automatically detect whether it is an employer or job seeker profile and take them to the respective dashboard. Employer and job seeker can login into the application by using right login credentials which is registered during the registration process.

`www/login/check.php` – This is the file verifies the login credentials entered.

`www/login/index.css` – Styles for the index.php file

`www/login/index.php` – front-end file

www/login/logLogin.php – This file track all the logins and logouts of users. It contains IP address, browser, date/time and device accessed.

Employer Dashboard:

The employer dashboard database helps the employer to view their posted jobs, how many job seeker profiles matching with the jobs posted, shortlist the job seeker, decline the job seekers etc.,

www/employer/images – This folder contains all the employers' images

www/employer/report – this folder use to generate PDF for employer jobs

www/employer/data.php – This file use to retrieve data from back-end

www/employer/deletejob.php – This file use to delete posted jobs
